

Lunch DIScussions  
13 June 2024, 1-2 pm

## Witness Statements, Chronologies and Opening Statements created by AI technically possible and permissible?

In the June session of the Lunch DIScussions Anke Meier (Noerr), Erik Schäfer (Bodenheimer) and Viktor von Essen (Libra Technology GmbH) will discuss the use of AI in international arbitration. The discussion will focus on the technical feasibility of AI solutions and their acceptance by arbitral tribunals.

Can and should we use AI to create witness statements, chronologies or opening statements? Which other use cases will be possible in two or five years' time? What will be the impact of the use of AI on the decisions of arbitral tribunals?

*The invitation text above was generated by ChatGPT after four iterations.*

### Programme

#### Welcome address

**Jennifer Bryant**

German Arbitration Institute (DIS), Bonn/Berlin

#### Discussion

**Anke Meier**

Noerr, Frankfurt

**Erik Schäfer**

Bodenheimer, Cologne

**Viktor von Essen**

Libra Technology, Berlin

#### Moderation

**Lucie Gerhardt**

Noerr, Frankfurt

### Registration

The event will be held in the form of a video conference. There will be an alternative option to participate by audio only. Participation in this event is free of charge.

Please register **by 11 June 2024** via the link below.

By registering you accept the [DIS General Terms and Conditions](#) for Conferences and Workshops. Registered participants will receive the access details by email prior to the event.

Please address any questions to [events@disarb.org](mailto:events@disarb.org).
